Flight Time:	5.8 hours		
Purpose of Flight:	Ferry		
Comments:	Good Flight. This flight was required to transit the aircraft to Palmdale to troubleshoot a landing gear indication fault. CATS & CPL recorded data since enough disk space is available to record data on the return flight as well. MABEL did not record data in order to save disk space for the return mission which includes MABEL science objectives. The plan is to fix the gear indications and return the aircraft to Wallops on Wednesday, Sept 19.
