<b>Purpose of Flight:</b>	Science		
<b>Comments:</b>	A successful science flight. This was mostly a repeat of the day prior mission to make comparisons as air quality was expected to change significantly over the two days. We did a number of 1000 ft overpasses of the Daesan Petrochemical Facility and flew along the Seoul-Jeju route at 4 different altitudes . We also flew the jetway to Busan back and forth 4 times at different altitudes. The flight also included three Seoul stereoroutes. The aircraft and instruments performed well.
